CORE VALUES

Pursuit Of Excellence

Continuous Innovation

Customer-Centric

Quality & Reliability

OUR VISION

- **To Become the Global Leader in Solar Lighting.**

  Delivering high-end, customized solar lighting solutions through strong vertical integration.

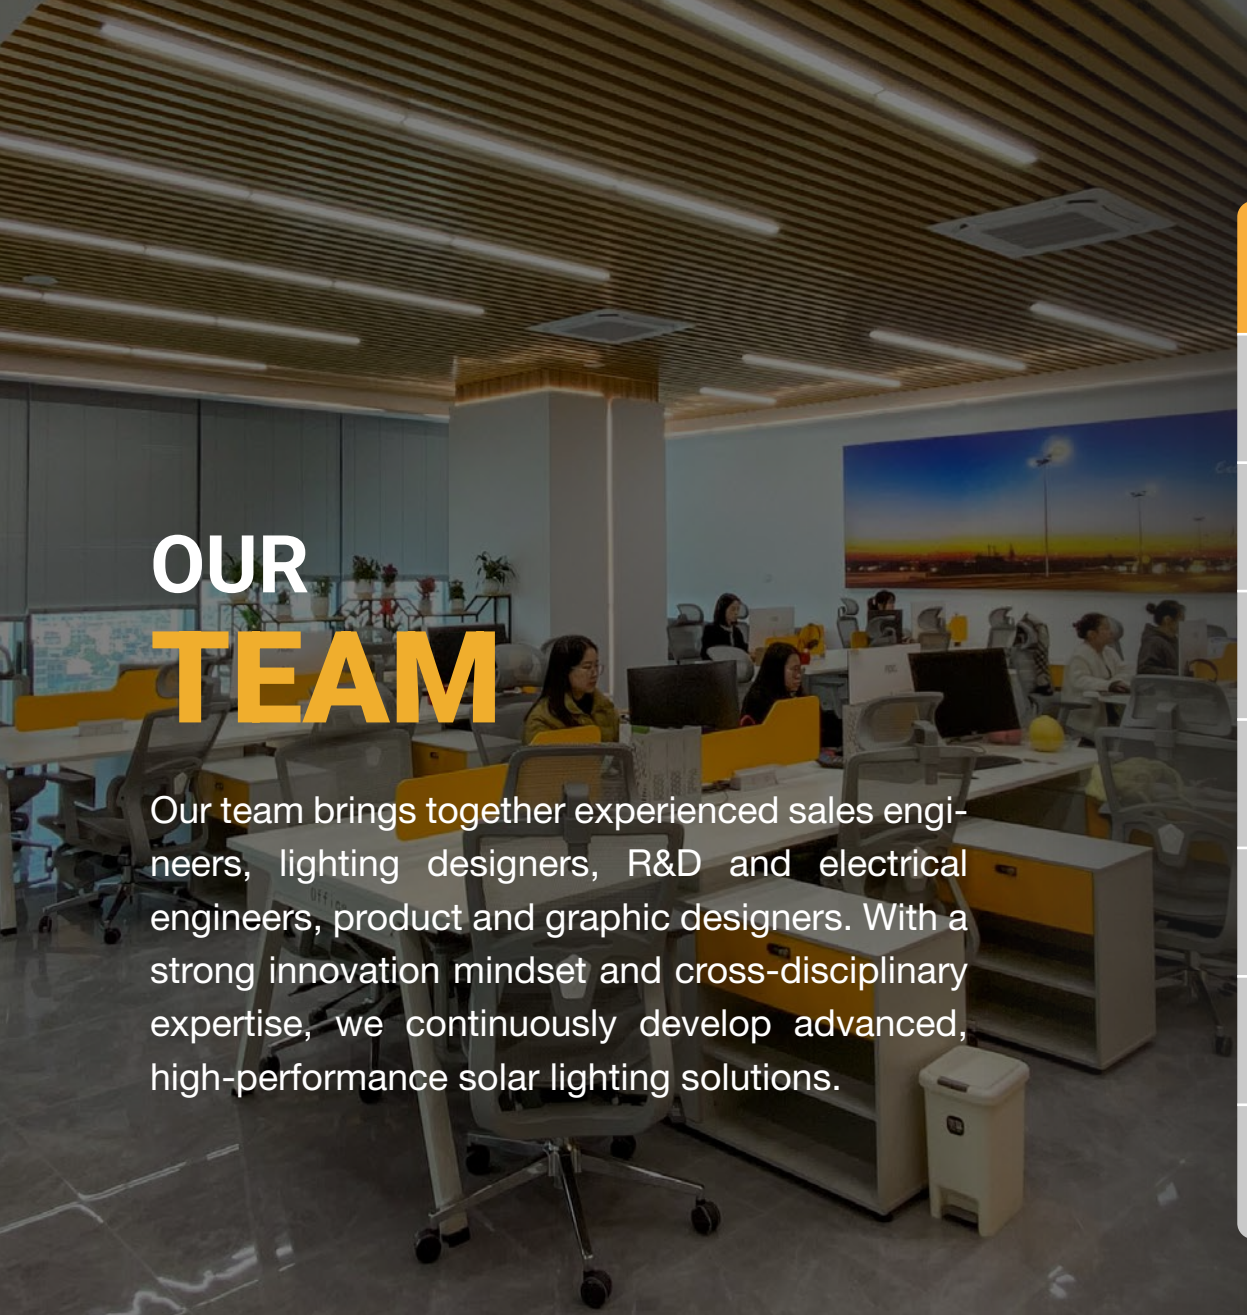

- **To Be the Trusted Partner for Customer Success.**

  Empowering clients with ODM/OEM services and full project support.

- **To Be the Leading Innovator in Smart & Sustainable Lighting.**

  Merging 20 years of design expertise with AI and digital technology.

OUR TEAM

Our team brings together experienced sales engineers, lighting designers, R&D and electrical engineers, product and graphic designers. With a strong innovation mindset and cross-disciplinary expertise, we continuously develop advanced, high-performance solar lighting solutions.

IN-HOUSE
DESIGN & MANUFACTURE

Our solar street lights are fully designed, developed, and manufactured in-house. Throughout the R&D process, our team continuously analyzes performance and optimizes each component—from optics and electronics to structure and thermal design. With every generation, we refine the product to achieve higher efficiency, greater reliability, and excellence in every detail.

AURORAS
ACHIEVEMENTS

- 3 Years Contract with UNHCR
- Philippines 2019 30th Sea Games
- Solar Lighting@ Dubai Expo 2020
- The Only Trusted Brand In Iraq

01

3 Years Contract with UNHCR

Auroras provided more than 20000 sets of solar street lights for UNHCR'sprojects in dif- ferent countries and regions. Including Syria, Bangladesh, Jordanetc. Auroras's solar street lights provide stable and continuous lighting servicesto light up the areas where are lack of electricity. The most stable quality is thereason why UNHCR and other government clients trust Auroras.

AURORAS
Excellence of Sustainable Energy

02

Philippines 2019 30th Sea Games

As the leader of vertical solar led street light in the world, It is SUNLID's honor that we provid- ed more than 300 sets of vertical solar led street light for 2019 south asian games hold in Philippine.

AURORAS
Excellence of Sustainable Energy

03

Solar Lighting @ Dubai Expo 2020

Facing of the strong competition from a number of peer companies from all the world, Auroras won the project with innovative vertical solar street light which had the best stability and design. 2021 Dubai World Expo is a global case that promotes the introduction of Auroras's solar lighting products to more mid-to-high-end customers.

AURORAS

Excellence of Sustainable Energy

04

The Only Trusted Brand In Iraq

After years of hard work, Auroras's solar street lights obtain the highest qualityreputation in Iraq. In July 2021, The Chinese Consulate General in Irag donat-edhundreds of sets of Auroras's solar street lights to the Erbil municipal govern.ment as a gift for the con-struction of the Belt and Road Initiative. On Septem-ber 27, The Kurdistan leaders and The Chinese am-bassadors attended the handoverceremony of the solar street light project.
