CRINEO INTERNATIONAL LIMITED

GLOBAL COMPANY PROFILE

GHANA · CHINA · GLOBAL

BEYOND BORDERS

Connecting markets.
Coordinating trade.
Building lasting partnerships.

International sourcing, supplier due diligence, procurement and shipping coordination for businesses and individuals across markets.

GLOBAL BY DESIGN

CRINEO is positioned as an international trade and sourcing coordination company—not a business limited to Ghana, China, or any single product category. We connect cross-border opportunities through transparent processes and long-term supplier relationships.

SOURCING & PROCUREMENT / **SUPPLIER VERIFICATION** / **TRADE COORDINATION**

Corporate overview

01 / Who we are

An internationally oriented partner for sourcing and cross-border trade operations.

CRINEO INTERNATIONAL LIMITED is a global-facing business focused on connecting buyers, manufacturers, suppliers and service partners across international markets. The company helps clients navigate the practical stages of product sourcing, supplier checks, purchasing coordination and the movement of goods through relevant logistics providers.

Ghana and China serve as important commercial coordination points, while our market outlook is worldwide. CRINEO works to identify suitable opportunities across countries and sectors, subject to local requirements, partner capability and mutually agreed commercial terms.

OUR MISSION

To simplify international procurement by coordinating credible supplier engagement, clear commercial terms and informed cross-border decisions.

OUR VISION

To become a trusted globally connected partner for international sourcing, procurement and trade collaboration.

Our services

International sourcing
Product and manufacturer discovery aligned with buyer specifications.

Supplier verification
Business-document checks, capability reviews and inspection coordination.

Procurement coordination
Quotation comparisons, negotiations and purchasing support.

Quality assurance support
Factory visits, product checks and independent inspection arrangements.

Cargo consolidation
Warehouse coordination and consolidation of approved shipments.

Shipping & logistics support
Freight-option assessment, shipment follow-up and handover coordination.

Wholesale & bulk purchasing
Commercial sourcing support for volume requirements.

OEM & customisation
Branding, packaging and product adaptation discussions with manufacturers.

International trade advisory
Practical guidance on cross-border processes, documents and trade partners.

02 / How we work

A structured process designed around communication, checks and clear responsibilities.

01 **Requirement intake**
Understand the item, specifications, quantity, intended use, target market and delivery needs.

02 **Supplier identification**
Source relevant manufacturers or trading partners and compare documented offers.

03 **Verification & assessment**
Coordinate checks proportionate to the order, including company records, product evidence and inspections where agreed.

04 **Commercial approval**
Present quotations, applicable fees, purchasing conditions and payment instructions for client approval before ordering.

05 **Purchasing & quality follow-up**
Coordinate supplier engagement, order confirmation, production updates and relevant quality checks.

06 **Consolidation & delivery support**
Coordinate with warehouses, forwarders or other service providers and share available shipment updates.

Operating principles

- **Transparency.** Clients receive the applicable pricing basis, service charges, exclusions and responsibilities before proceeding.
- **Documentation.** Supplier information, instructions, approvals and key commercial records are maintained for accountability.
- **Due diligence.** Verification and inspection arrangements are tailored to the risk, product type and agreed scope.
- **Defined roles.** CRINEO coordinates services with suppliers and third parties; responsibility is determined by the specific written agreement.

03 / Markets & partnerships

International thinking, practical local coordination and a relationship-led approach.

Our global positioning

CRINEO seeks to serve cross-border buyers and work with capable factories, wholesalers, financial institutions and logistics partners wherever a commercially viable, compliant arrangement can be established. Our sourcing activity has a China–Ghana focus, but our strategic positioning is global and our model is designed to develop relationships across additional markets.

WE WORK WITH

IMPORTERS & DISTRIBUTORS

Product sourcing and coordinated bulk purchasing.

RETAILERS & GROWTH BUSINESSES

Supplier discovery and catalogue expansion support.

CORPORATE & INSTITUTIONAL BUYERS

Structured sourcing and procurement coordination.

MANUFACTURERS & GLOBAL PARTNERS

Market-entry conversations and long-term cooperation.

Collaboration opportunities

We welcome non-exclusive, commercially defined collaborations with manufacturers, suppliers, professional inspection firms, warehouses, freight providers, banks and other service partners. Potential cooperation may cover supplier access, product information authorisation, international payment support, trade facilitation, co-marketing and other mutually agreed trade-support activities.
